

Marine Structures

Tonkin & Taylor's head office is in the 'City of Sails' in Auckland, located between two of New Zealand's larger harbours. So we have a passion for marine structures and we've been involved in a wide and extensive range of coastal projects within the Auckland region covering most coastal structure types.

Expertise

T&T has design expertise in:

- Solid jetties
- Marinas
- Timber wharves
- Concrete wharves
- Marine piles
- Floating breakwaters
- Piled breakwaters
- Solid breakwaters
- Vehicular ferry facilities
- Marine ramps
- Dredging.

Service areas:

- Investigations
- Concept design
- Detailed design
- Resource consents
- Building consents
- Contract documentation
- Construction administration.

Experience

T&T's experience around Auckland is extensive, but we've also worked on projects throughout the rest of New Zealand as well as Pitcairn Island, American Samoa, Fiji, Tahiti and Malaysia.

The type of work we have been involved in ranges from small scale repairs to existing timber wharves up to full scale concrete wharves for ports.
