

Tonkin & Taylor

Bankhouse Development, Marlborough

Client

Private Company.

Project

Options scoping, consent and detailed design for a 1600 ha property located in Marlborough in the South Island of New Zealand. The property is a major grape growing and wine producer.

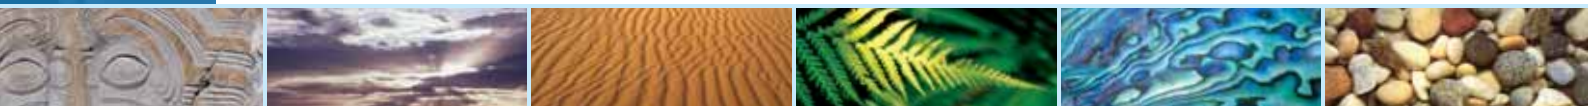

The project included the construction of a lake to store and supply water for frost fighting and irrigation water for grapes. The project site is adjacent to the Waihopai river near Renwick.

Services provided

- Project scoping including water supply options study
- Site investigation works
- Preliminary design
- Detailed field investigations
- Detailed design.
