

**Tonkin & Taylor**

## Bujagali Hydropower Project EIA, Uganda

### Client

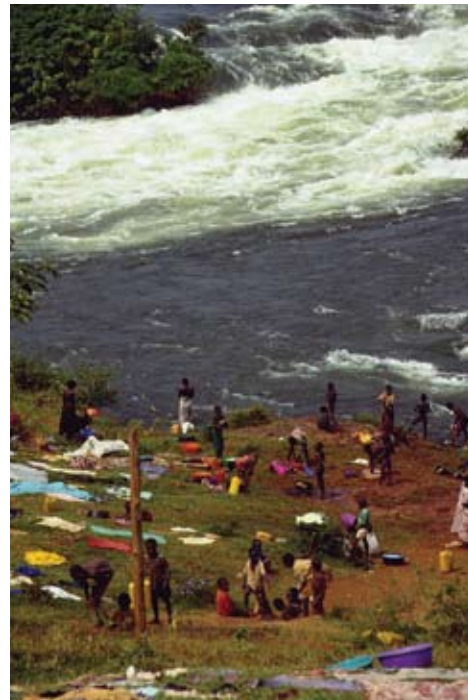

Sithe Global LLC(USA) and IPS (Kenya) Ltd.

### Project

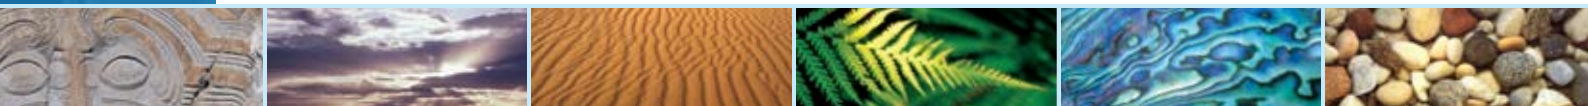

Tonkin & Taylor, in association with RJ Burnside of Canada, provided social and environmental assessment services for this US\$750 million greenfield 250 MW hydropower project, situated at the source of the River Nile.

The project includes 100 km of double circuit 220 kV transmission lines and associated substations. Social and Environmental Assessments were carried out in accordance with World Bank/IFC Performance Standards, the Equator Principles and Ugandan national regulations. Specific issues which were addressed included resettlement of residents, endangered fish species, tropical disease vectors and standard construction related issues such as sediment discharges, noise and dust. Detailed Environmental Management and Monitoring Plans were developed for implementation by the client and its EPC contractor.

T&T has an ongoing advisory role during the project's 4 year construction period, and into the operational phase.
