

East Tamaki Connection, Auckland

Client

Transit New Zealand and Manukau City Council
(through GHD).

Project

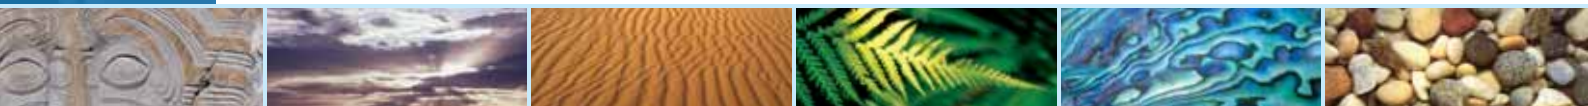

The project provides a roading link between the Southern Motorway (SH1) and the new Highbrook Business Park on the Waiouru Peninsula, Auckland. The scope involves widening of SH1, including widening of the causeway and bridge across the Tamaki River, a new interchange of Highbrook Drive with SH1, a new multi-span bridge across Otara Creek and Highbrook Drive itself.

Services provided

- Geotechnical investigations
- Design of causeway widening across Tamaki River
- Design of pile foundations for:
 - Highbrook Interchange Bridge
 - SH1 Tamaki River Bridge
 - Otara Creek Bridge
- Design of stone column foundations for Trenwith Street Underpass
- General earth works observation and testing.
