

# Hunua Open Cast Quarry - Papakura, Auckland

## Client

Winstone Aggregates.

## Project

Auckland 's largest Open Cast Quarry, Hunua, supplies a substantial part of the regions aggregate requirements, including infrastructure such as roading and concrete.

The quarrys present extraction point is nearing the end of its current economic life and a new extraction pit, known locally as Symonds Hill, is planned within the quarry zone.

## Services provided

- Geotechnical design of final pit slopes for Hunua Quarry
- Preliminary geotechnical design for Symonds Hill Quarry
- Geotechnical investigation and design for overburden disposal sites.
