

Nelson City Council, Roadings Retaining Wall Survey

Client

Nelson City Council.

Project

Under new Government Legislation NCC were required to assess their assets with regard to remaining asset life and current valuation.

Tonkin & Taylor were contracted to put together a database of NCC's roading retaining walls.

An assessment of each walls condition, its spatial location and a risk assessment was undertaken at the same time.

Services provided

- Geotechnical assessment
- Structural assessment
- Risk assessment
- GIS position
- Compilation of database.
