

## Pond 2 - Kinleith Sludge Drying Facilities, Tokoroa

### Client

Carter Holt Harvey.

### Project

Identification and assessment of options to replace a sludge drying pond, an integral component in the waste disposal system for the Kinleith Pulp & Paper Mill. A solution was identified and constructed resulting in significant improvements in the performance and operation of both the existing and new sludge drying ponds.

### Services provided

- Options and feasibility assessment
- Geotechnical investigations
- Detailed design and contract documentation
- Contract management and supervision
- Ongoing surveillance and technical support.
