

Utwa - Walung Conservation Area EIA, Kosrae, Federated States of Micronesia

Client

South Pacific Regional Environment Programme.

Project

The Utwa-Walung Conservation Area is a community-based conservation initiative supported by the South Pacific Regional Environment Programme and includes marine, reef, estuarine, lagoon and mangrove forest ecosystems.

Tonkin & Taylor International was engaged to carry out an EIA for a new resort.

Services provided

- Determine direct and indirect effects of the proposed development on the conservation area and on local communities of Utwa and Walung
- Consulted with the communities
- Reported on findings to conservation area project staff, local communities and relevant government officials
- Prepared and submitted a formal EIA report.
